Dear Parent/Guardian:

We would like to welcome you to the Street Wise Driving Academy. Driver training is a long term investment with an opportunity for a huge return on your investment. Success in the Program depends on your cooperation and participation.

Please read this application through carefully with your Son or Daughter. Please contact Mr. Earl Russell at 603 540-4056 if you have any questions.

Any person under 18, planning to be licensed to drive in New Hampshire, must successfully pass a Driver Education accredited course of thirty (30) classroom hours, ten (10) hours behind the wheel and (10) hours of observation under the supervision of a certified instructor.

A permit is not needed in the State of NH. However, they must be at least 15½ and drive under the supervision of a licensed operator in the front seat with them, who is at least 25 years of age or older. The State of NH requires 40 hours logged with the parent for licensing, of those 40 hours, 10 hours need to be in darkness. **Home practice is required and essential for successful completion of this Driver's Ed course. We require at a minimum of 10 home practice hours prior to the first driving lesson.** The Street Wise Driving Academy 2019 Toyota Corolla used for practice driving is equipped with dual brake control for safety and is fully insured.

It is our mission to encourage students to be safe motorists and intelligent pedestrians. In the limited time at our disposal, we will provide your young driver with the opportunity to become reasonably proficient using the basic techniques necessary to operate a motor vehicle safely and skillfully. The science of driving is composed of many habitual actions that a driver must acquire over a period of time. The science of driving is highly orchestrated under a very deliberately structured taxonomy incorporating vision training and decision-making. The odds that a driver will learn or acquire a lifelong style of empowering driving habits without having had formal education is as likely as winning the lottery. Drivers need to receive effective risk management behavioral training.

Learning to maneuver the vehicle is only part of safe driving. Emphasis on attitudes and the effects of alcohol and other drugs, seatbelt use, sharing the road with others, and learning to exhibit courtesy, as well as the ongoing need to interact with an ever-changing environment and conditions are aimed at reducing the number one threat to the 16-23 year old age group. Street Wise Driver Training Program will provide the information to make those safer, risk-reducing decisions.

There will be no classroom classes held on vacation weeks or school holidays. However, driving times may be available during these times.

Please be informed that when your young driver takes his/her driving test they are expected to use the family car. The reason is that this is the car they should be practicing in after they complete their formal lessons and most likely the car they will be driving after they are licensed. Prior to or upon receiving his/her license, you should call your insurance agency to inform them.

Driver Education, taken through Street Wise Driving Academy at John Stark Regional High School, carries ¼ credit applied toward graduation. This will show up as a pass/fail on your report card. Upon successful completion, talk with your insurance provider for discounts on insurance.

An awesome responsibility is about to be undertaken. Please be aware of the following contract guidelines: Once again, the Street Wise Driver Training Program, and these contract guidelines are structured for the best possible outcome for a socially responsible, safe driver.

Sincerely,

Earl Russell, Owner
