At this time _____ is lacking the necessary skills to pass the road test. The driver must be able to show they can drive a motor vehicle with good control. During the road test the driver will be scored on skills in handling the vehicle in traffic, driving habits, working knowledge and understanding of traffic signs and rules of the road. How well the driver handles the physical, mental and emotional stress of driving in traffic. Attitude toward driving with personal and public safety in mind.

vehicle familiarization smooth acceleration/braking speed control
organized search pattern steering wheel position with regards to maneuver vehicle swing
how wide/long vehicle is approaching intersection controlled/uncontrolled right of way
point of no return/yellow light line of sight path of travel mirror use right on red
blind spot/head check full/complete stop at stop line following distance lane position
protected/unprotected/yielding lights pavement markings highway on/off merge/weave lane
searching crosswalk controlled/uncontrolled searching bike lane turn/blinker signal
parallel parking perpendicular park forward left/right perpendicular park backwards
swing of vehicle backing backing ability not prepared for the unexpected
instructor intervention verbal/grab wheel/teacher brake basic driving habits

Please practice the above skills with your driver prior to going to the DMV. If you have any questions or need additional help feel free to contact me.

Thank you

Earl Russell
Owner/instructor
